Claims 1-13 are pending and at issue for examination. Claims 1-13 are drawn to an isolated *Bacillus* delta, delta prime, or tau subunit of a DNA polymerase III-type enzyme, and a clamp loader or DNA polymerase III-type enzyme complex comprising at least one of said subunits and a kit comprising said DNA polymerase III-type enzyme.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- (1) delta subunit,
- (2) delta prime subunit, or
- (3) tau subunit.

The inventions are distinct, each from the other because of the following reasons:

Inventions (1)-(3) are structurally unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, represent structurally different polypeptides. Therefore, where structural identity is required, the different sequences have different functions and effects.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature

Art Unit: 1652

and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard G. Hutson whose telephone number is 571-272-0930. The examiner can normally be reached on M-F, 7:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapu Achutamurthy can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
